Type of article: Editorial

Abstract: This is an introductory editorial to Algerian Journal on Cancer Survey.

Keywords: Algeria, Cancer, Diagnosis, Therapy, Neoplasm.

With a great pleasure, we start the Algerian Journal on Cancer Survey. The journal concerns all research area related to the cancer. It represents a serious initiative for ensuring high quality publication in an important domain.

The Journal accept for publication original articles, case reports, reviews, editorials, letters, and technical reports. All related domains to the thematic are accepted for publication. As a fundamental rule for publishing the respect of publishing ethics ether human and animal rights. The journal reject all contributions which miss ethics like plagiarism, data fabrication, salami publishing, ..etc.

It is our ambition to publish the highest quality research surveys related to cancer responding to the standards of publication and ethics.
