

**International Congress on Health Sciences and Medical Technologies, Tlemcen,
Algeria, 13-15 December 2022**

The program

	Tuesday 13 December	Wednesday 14 December	Thursday 15 December
8h:00-9h:00	Social event Touristic Trip Visit of Touristic places at Tlemcen	Registration and Inauguration	
9h:00-10h:30		ICCPH'22	Program committee round table
10h:30-11h:00		Coffee Break (Posters session1)	Coffee Break
11h:00-12h30		ICMT'22	
12:30-13:30		Lunch (Posters session2)	
13:30-15:00		ICPCBS'22	
15:00-15:30		Coffee Break (Posters session3)	
15:30-16:00		ICGI'22	
16:00-16:30		Closure	

ICCPH'22 14/12/2022

9:00-10:30 Oral Session

9:00-9:25	Naima Badid: "Tumor And Redox Markers During Colorectal Cancer and correlation between levels of nitric oxide, superoxide anion, malondialdehyde and cancer antigens "CEA and CA 19-9"-A Case-Control Study In The NW Of Algeria -
9:25-9:50	Housna Labeled : Colorectal Cancer in individuals with Familial Adenomatous Polyposis and Attenuated Familial Ad
9:50-10:05	MIRAOU : Long survival of a patient with stage IIIc lung cancer
10:05-10:30	Bellifa Samia The effect of Negilla sativa on biofilm formation of Staphylococcus aureus isolated from medical devices at the university hospital of Tlemcen

10:30-11:00 Posters Session 1

Waffa Bouali	Nosocomial fungal infections in University Hospital of Tlemcen
Housna Labed et al.	Colorectal Cancer in individuals with Familial Adenomatous Polyposis and Attenuated Familial Ad
I m'hamedi et al.	Impact of Covid-19 on patients with chronic disease
A Halimi	Biofilm formation in clinical isolates of Proteus mirabilis and its relationship with multidrug resistance
MIRAOUI et al.	Long survival of a patient with stage IIIc lung cancer
Nour El Houda Bousnane et al.	Predictive values of peripheral blood inflammatory scores and the outcome of patients with breast cancer treated in the anticancer center of Batna.
A Khouani	Retrospective analysis of upper aerodigestive tract cancers: Tlemcen between 2017-2019
Ilyes Zatla et al.	COVID-19 SURVEY INQUIRY
EL-Attafia BENHAMIMED	Use of herbal medication in rheumatic diseases in Mostaganem (Western Algeria)
Fatima Zohra BELBACHIR	Anti-inflammatory and anticancer effects of extract methanolic
D MIRAOUI	Early stage ovarian cancer
K SETTI AHMED et al.	A Secondary Blood Stream and Urinary Tract Infections in COVID-19 Patients.
MEZOUAR Djamil	Determination of biochemical parameters in pregnant women who have recovered from Covid-19

ICMT'22 14/12/2022

11:00-12:30 Oral

11:00-11:25	Abdelkrim ALLAM	Abnormalities Detection in Radiotherapy Service based on Machine learning
11:25-11:50	Aicha Benyoucef	Medical image watermarking for authentication, integrity, and confidentiality of data
11:50-12:15	Khadija Messaoudene	Detection of knee osteoarthritis based on the combination of texture features: data from osteoarthritis initiative

12:30-13:30 Posters Session 2

ABDI et al.	An Optimized Medical Image Watermarking Approach For E-Health Applications
D Bouchaffra et al.	Semi-Supervised Classification of Emotional States based on EEG Signals
D Bouchaffra et al.	Prediction of GSR Emotional Attributes based on SVR and PLS Regression Models
Benyelles	a Study of the parameters influencing scintigraphy image quality

L Bellal et al.	B.Linda Classification of histological images of thyroid nodules based on a combination of Deep Features and Machine Learning
Farah BENAYAD	Categorization of Emotion based on Causality
Iman F Mehdaoui	The Interaction between topographic parameters And DES for Algerian keratoconus patients
Sara Belgacem	Progression of HOA following Smile refractive surgery: Case report
Hanene Bey	Comparative study between standard methods and new approaches in the treatment of amblyo
L MOURAD et al.	Understanding the cornea with imaging and biomechanics
Amina BOUHAUCHE	Effect of the binder concentration on the quality of the granules obtained by melt granulation
S Habani	The impact of digital devices on the childrens vision

ICPCBS'22 14/12/2022

13:30-15:00 Oral

13:30-13:55	A Kenich	Immunomodulatory effect of new baclofen analogues complexed with β -Cyclodextrin.
13:55-14:20	belifa samia	Implication of biofilm-forming Klebsiella pneumoniae in healthcare associated infections
15:20-15:45	Naima Badid	Health risks from desalinated seawater used for human consumption -The case of Honaine Plant

15:00 -15:30 Posters session3

m'hamedi	Effect of subinhibitory concentrations of ceftazidime, piperacillin/tazobactam, imipenem and colistin on biofilm formation by clinical Acinetobacter baumannii isolated from endotracheal tubes in ventilator-associated pneumonia
Ilhem Zeriouh	Assessment of the toxicological risk of aluminum present in infant milk in the short term in Swiss mice
Ilhem Zeriouh	Allergenic study of a chia-based diet in the intestinal mucosa of Balb / C mice immunized with beta-Ig and alfa-lac.
D Allane	Antiparasitic potential of Cerastes cerastes venom on Echinococcus granulosus protoscoleces is triggered by redox imbalance
Amel Toubane et al.	Burns healing and anti-acne activity study of a lavender essential oil emulsion using Image processing and survey
H CHENINI-BENDIAB et al.	Algerian date seeds extract (Phoenix dactylifera L.) play a therapeutic role on neurotoxicity induced by D-galactose/A β 1-3-mediated Alzheimer's disease in Mice
K ZERROUKI et al.	The Antitoxicity effect of pumpkin on mercury toxicity

A BEKARA	The Relationship between depression disorder and some routine biochemical parameters in Algerian population (Chlef province)
Halima A Bahlou	Characterization and Technological Properties of Bifidobacterium Strains Isolated from different ecology

ICGI'22 12/12/2022

15:30-16:00 oral

MERAD BOUDIA nee MESLI	First Clinical Case of blaKPC-3 gene producing E.coli in Tlemcen hospital; Algeria
M Ziani	Integrity and confidentiality of data Association study between asthma and single nucleotide polymorphisms of IL-18 and IL-1B genes in an Algerian population
